INFO.SUPPLEMENT TO  
REPORT

THIS DOCUMENT CONTAINS INFORMATION AFFECTING THE NATIONAL DEFENSE OF THE UNITED STATES WITHIN THE MEANING OF THE ESPIONAGE ACT OF 1917, U.S.C. 56 AND 58, AS AMENDED. ITS TRANSMISSION OR THE REVELATION OF ITS CONTENTS IN ANY MANNER TO AN UNAUTHORIZED PERSON IS PROHIBITED BY LAW. VIOLATION OF THIS FORM IS PROHIBITED.

THIS IS UNEVALUATED INFORMATION

50X1-HUM

1. The Prahovec Ironworks (RA9/E05) employs about 2,400 workers, including about 400 women, in the production of crankshafts and camshafts for Diesel tank engines, rifle and machine gun barrels, grenade parts and plate for the manufacture of shells.\* Work is done in three shifts. About 30 crankshafts, 60 camshafts, 200 to 230 gun barrels and 800 grenade parts are produced in one shift. Raw materials are supplied by the Vitkovice Ironworks and the Podbrezova Ironworks. Electric power is taken from the East Slovakian power network station in Krompachy and from the plant's own power station. The plant is surrounded by a barbed wire fence two meters high and guarded by about 20 members of the workers' militia, who are armed with rifles. The plant manager is Juhas.\*\*

\*  Comment: The plate for the production of shells is believed to be shipped to the Machine Works in Povazska Bystrica and the Skoda Works in Lubnica.

\*\* [redacted] Comment: [redacted] this factory, which employed only about 300 workers in late 1949, manufactured such items as Ajax hammers and 50X1 soroocket chains.

Attachment: Sketch of the Prakovec Ironworks, with key.
